The interdisciplinary meet was organized by Department of Conservative Dentistry and Endodontics and Department of Prosthodontics at Bharati Vidyapeeth (Deemed to be University) Dental College and Hospital, Sangli on 11th January, 2024. The case was presented in the presence of the heads of the respective departments from Department of Conservative Dentistry and Endodontics and Department of Periodontics of Bharati Vidyapeeth (Deemed to be University) Dental College and Hospital, Sangli, along with staff members and post graduate students of Conservative Dentistry and Prosthodontics.

As the part of this program, Dr. Harshata Tirtalli introduced the topic and presented the case history of the patient. Dr. Ayushi Botadara presented the clinical findings, radiographic findings, diagnosis and treatment plan for the particular case. The approach they opted for performing the case was further presented by the presenters.

This interdisciplinary meet was held to discuss a case which was done by the two Departments (Department of Conservative Dentistry and Endodontics and Department of Prosthodontics). The purpose of this meet was to discuss various treatment modalities, treatment planning and work collaboratively for better treatment outcome.

The vote of thanks was given by Dr. Sharad Kamat, Principal, Bharati Vidyapeeth (Deemed to be University) Dental College and Hospital, Sangli.
