The Department of Periodontology conducted “**Faculty Clinical Meet**” on 19th March 2024. The “**Faculty Clinical Meet**” on topic “**Management of Soft Tissue Complications Around Dental Implants – Case Based Approach**” was presented by Dr. Kunal Keshaw, Assistant Professor, Bharati Vidyapeeth (Deemed to be University) Dental College & Hospital, Sangli. It was a series of various case scenarios requiring gingival tissue and biotype augmentation with platelet rich fibrin and Low Level Laser Treatment around dental implants and their use in the treatment of peri-implant mucositis and Peri-implantitis, putting an emphasis on importance of periodontal health for dental implants stability, function and longevity. It was well attended by almost all the faculty members of every department of our dental hospital as well as by interns and PG’s.

Such clinico-pathological presentations and case based treatments will provide a greater paradigm for faculties and students to improvise treatment approaches, that will enhance the quality of continuing dental education and research for treatments along dental implants.

Vote of thanks was given by Dr. Shruti Kumbhare and certificate was provided by respected Dr. Sanjay Londhe sir, Principal Dr. Sharad Kamath sir and Vice Principal Dr. Jeevanasha ma’am.

The programme was conducted by staff members of Department of Periodontology, Dr. Sachin Mangalekar, Dr. Pallavi Kamble, Dr. Jeeth Rai, Dr. Nitin Gorwade, Dr. Priyanka Lavate, and Dr. Shashank Vijapure.

Faculty clinical meet was attended by postgraduate students and interns also. In total 50 attendees took benefit of presentation. At the end of presentation, questions were invited from the attendees. Appropriate answers were given. Over all session went informative and fruitful to all the attendees. Session ended with thank you note.
