**About the workshop:** The workshop on Good Clinical Practice (GCP) convened with an esteemed panel of speakers, each offering unique insights into the realm of ethical clinical research. Mrs. Vaishali Deshpande commenced by providing an insightful overview of GCP, elucidating its significance and intricacies, while also delving into the GCP Guidelines for clinical trials. Dr. A K Verma followed suit, shedding light on the latest developments in the field through an elucidation of the New Drugs & Clinical Trials Rules 2029 G.S.R 227 (E). Dr. Ravindra Bhaskar Ghooi then navigated through the ethical landscape with an in-depth analysis of the ICMR Guidelines, particularly focusing on the National Ethical Guidelines for Biomedical and Health Research Involving Human Participants. Finally, Dr. Suchita Dabhadkar brought an innovative dimension to the discourse by exploring the ethical considerations surrounding the application of Artificial Intelligence in Biomedical Research and Healthcare. Collectively, the workshop not only enriched the attendees' understanding of GCP but also underscored the paramount importance of ethical conduct in advancing medical research. The workshop provided a platform to delve into the intricacies of ethical guidelines and regulatory frameworks governing clinical trials and biomedical research.
