**Sub: Measures for improving the performance of the students in academics**

The performance of the students in the university in class tests quizzes is the barometer of the teaching and learning practices adopted by the university. Further, upon gaining entry into higher educational institutes, many students, especially those who have studied in vernacular medium schools, are observed to be struggling with the course curriculum initially. Hence, it is imperative that university puts in place the mechanism which helps teachers in identifying the areas of weakness of the concerned students and design measures to help them improve their performance in academics.

The university has developed mechanism which aims at identifying strengths and weakness of the students and categorizing them into slow learners and advanced learners and various measures aimed at improving their performance in academics.

The policy is enclosed in the Annexure.
