2 days Green Tech Fest 2023-24 is a *conclave showcasing sustainable products and solutions*. The Green Tech Fest, at Bharati Vidyapeeth (Deemed to be University) College of Architecture, Pune, is a prestigious event which aims to showcase "Sustainable products and solutions, promote sustainability, and raise awareness about the importance of sustainable building practices within our college and the wider community".

It is a two-day event that brings together professionals, academicians, policymakers, students of architecture, engineering & technology and the general public to learn about the latest advancements in Green building and trends in Sustainable Architecture.. This interactive platform will feature exhibitors from various industries, including construction, architecture, engineering, real estate, and technology, who will showcase their sustainable products, materials, and services.

In addition to the exhibition, the fest had a Symposium with seminars, vendors presentations, and panel discussions led by experts in the field, providing valuable insights into green building trends, best practices, and the latest research on sustainable design and construction.

It is an industry oriented initiative to forward the vision of our founder, Dr. Patangrao Kadam - "Social Transformation through Dynamic Education", by nurturing the spirit to design and build a new generation of buildings and cities to respond to the planet's emerging climate challenges.
